

[COAST RECORD.]
KID, THE BAD MAN.**He Lost His Squaw in His Last Fight.****The Tell-tale Records of the Murderous Apache.****A \$5000 Reward Has Been Offered for His Capture.****George Blair Convicted of Murder—The Rain and Snow—Eight Thousand People at the Fair-Shooting at Prescott.****By Telegraph and the Associated Press.****TUCSON, Feb. 18.—Advices from****Bunker Hill, where Apache Kid made his recent fight, state that the Apache scouts who examined the dead squaw say she was Kid's wife; that they were en route from Mexico to the San Carlos reservation. The squaw had a ring with six marks which the Apaches say represents six murders. These added to eleven others which Kid and his followers have killed during the last two years in Arizona indicates the ravages of this renegade.****It is stoutly asserted that Kid has killed three times as many Mexicans in Sonora. Gov. Higginson yesterday issued a reward of \$5000 for Kid, dead or alive. The Governor has for the last three months been devising means by which the wily renegade could be taken. A heavy snowfall in the mountains gives hope of success. Outside of the work of Kid and his small following there are no Indian troubles.****LOST IN THE FOG.****Editor Pixley's Nephew and Two Young Sons—Ladies Presumably Drowned.****SAN FRANCISCO, Feb. 18.—A young man and two young women are supposed to have been drowned in the bay this afternoon, between Sausalito and Belvidere. At 1 o'clock Henry Pixley, aged 20, who is a nephew of Editor Pixley of the Argonaut, and Misses Annie and Emily Tibbey, well known in society here, embarked in a cockleshell, less than ten feet long, to row across Richardson's Bay to Belvidere, two miles away. The bay was calm and the sun was shining brightly at the time. A few minutes later, however, the craft came up, fog settled over the bay, and the frail shell was lost to view.****Up to midnight no tidings have been received of the missing young people, though many searching parties have been out in tugs and in row-boats and boats, and the searchers have been setting up and down the shores all along the north side of San Francisco Bay. It is believed the frail craft either capsized and all its occupants drowned in the vicinity of Belvidere, or that the youth and his companions lost their bearings in the fog and were carried out through the Golden Gate, most certain death in the breakers. The shell in which they embarked was considered unsafe for even one person.****MAKING A RECORD.****Prescott's Constable Shoots a Drunken Man for Resisting Arrest.****PREScott (Ariz.), Feb. 18.—Constant L. C. Miller, who shot Chief of Police Archibald a month ago, added to his record last night by shooting John Wallace twice through the left lung, probably wounding him fatally. Miller attempted to arrest Wallace, who was very drunk. Wallace, in a mauldin, drunken manner, made a show of resistance, and was shot down. The shooting is generally considered unjustifiable. Miller is in jail.****This is the fourth shooting scrape that has occurred within the many weeks that have been in the same locality. Considerable indignation is manifested by the citizens of this place.****WITH MILITARY HONORS.****Funeral of Col. J. D. Stevenson at San Francisco Yesterday.****SAN FRANCISCO, Feb. 18.—The late Col. Jonathan Drake Stevenson, the pioneer of 1847, was buried this afternoon. The funeral was held from Masonic Temple with the impressive rites of Masonry. The societies of California Pioneers and veterans of the Mexican war attended in company order.****At the Temple, Gen. W. H. L. Barnes delivered an eulogy, after which the remains were borne to the grave in the Masonic cemetery. At the grave a battery from the Presidio fired minute-guns and, as the body was lowered, a salute of three guns.****METEOROLOGICAL CONDITIONS.****Cold Weather in Nevada and Utah—Rain and Snow.****SAN FRANCISCO, Feb. 18.—Over California today the temperature has been about 60 deg.; over Arizona, above 60 deg., and over Nevada and Utah it has been about the freezing point. The weather is cloudy from San Francisco northward.****There has been no rain today except in San Francisco and Sacramento. In California, snow has fallen in Northern Nevada and Utah, and rain or snow has fallen over the greater portion of Washington and Oregon. The winds are light in force.****WEDDING TOUR IN A BALLOON.****A Venturesome Party Alights Safely 68 Miles from Where They Went Up.****SAN FRANCISCO, Feb. 18.—Aeronaut Baldwin, the bridal couple, Mr. and Mrs. Trainor, who were married in Central Park this afternoon, and a young woman employed on one of the city newspapers, who ascended in a small balloon, immediately after the wedding ceremony, alighted safely this evening near Byron, Contra Costa county, sixty-eight miles distant from there. The balloon was lost to view in the fog two minutes after it was cut loose.****A VERDICT OF GUILTY.****The Jury Recommends That George Blair Be Imprisoned for Life.****HANFORD, Feb. 18.—The second trial of George Blair for the murder of John Peterson closed last night. After being locked up twelve hours the jury returned a verdict of guilty and fixed the penalty at imprisonment for life.****The Sunday Visitors.****SAN FRANCISCO, Feb. 18.—The total admissions to the fair today were 800.****The Nitheroys.****LONDON, Feb. 18.—A dispatch from Rio de Janeiro states that the Brazilian cruiser Nitheroys has arrived outside the harbor.****A Royal Wedding.****BERLIN, Feb. 18.—The wedding of the Grand Duke of Hesse and the Princess Victoria Melita of Saxe-Coburg-Gotha has been finally arranged for April 22 at Coburg.****WRIGHT TALKS.****He Tells What He Thinks of the Knights' Quarrel.****By Telegraph and the Associated Press.****PHILADELPHIA, Feb. 18.—A. W. Wright, an ex-member of the general executive board of the Knights of Labor, made a statement tonight concerning suits brought against the order by the ex-general officers. "It," said he, "demands your money months after it is due be an evidence that we are disloyal to the order, was Hayer's course in drawing every cent due him up to the minute an evidence of his care for the order's welfare?" When asked if it was true that the order had done nothing to help the order since he was out of office, Wright said that he did not doubt that members were writing to Powderly as they were writing to him, asking questions which, if answered truthfully, would give the writers of the letters a wide opening. "There is one who holds a high position in the order. He did not doubt that Powderly answered these letters truthfully, but telling the truth in a case of this kind is at once the right thing and the best thing for the order.****SIXTY-TWO LIVES.****The Tug Millard Lost in the Caribbean.****Further Advices Confirm the Rumors of a Wreck—Not a Man Survived—How the News Reached This Country.****By Telegraph and the Associated Press.****NEW YORK, Feb. 18.—A special to the World from New Orleans says that the rumors published a few days ago to the effect that the tug Millard had been wrecked off the Nicaragua coast, is definitely improved. For this short period the building improvements have reached an aggregate of over \$250,000, and are still going on.****Finding that the soil and climatic conditions of this locality are highly favorable to fruit culture several irrigation enterprises have been started and the outlook for making the Yuma district notably successful in the production of early fruits is very way favorable.****Among the undertakings to reclaim the arid lands which prevail on with uninterrupted success is that of the Yuma Power and Light Company. This is a system which derives its supply from the Colorado River by pumping and three thousand acres within three miles from the river are watered at the rate of one inch of water to three acres. From experiments commenced two years ago with citrus fruit trees there now seems no doubt of the most complete success. Lemon trees thrive remarkably and promise to produce very high grade of fruit. Preparations are now well advanced to plant this season 110 acres to a variety of trees and vines including apricots, peaches, table grapes and oranges and lemons.****Leading from the town of****The Millard was a tug of twenty tons, Capt. Joe Thompson, making its way with sixty men from Greytown to Bluefields, where they were to work for the navigation company. Several weeks elapsed and rumors circulated that the vessel had gone down in the Caribbean Sea in a squall. These rumors are now confirmed.****THE SPOOK ROUTE.****A Maine-Isle Peddler Cancels His Engagement With Trouble and Misery.****By Telegraph and the Associated Press.****BANGOR, Me., Feb. 18.—Charles D. French, peddler and horticulturist of Orono, blew the top of his head off today. He left the following letter:****"To the Curious: 3:30 p.m., Feb. 17. In two hours I shall be dead, shot through the head with big charge of lead (no poetry intended), and will be on the spook route to kingdom come, faint and poverty, the cause. However, no one knows I am in a destitute condition but I'm in just the same. Burn, boil, bake, buy or send my carcass to the phosphate factory, just as the humor strikes you. I'm weak, faint and hungry, but I know how to care for myself and my engage- ment with Mrs. Troxie and Mr. Misery. Yours respectfully,****(Signed) "CHARLES D. FRENCH."****AS HOSTAGES.****Revolutionists' Families Held by President Vasquez of Honduras.****By Telegraph and the Associated Press.****NEW YORK, Feb. 18.—The Herald's dispatch from La Libertad says that it is reported that President Vasquez of Honduras is holding several families of prominent revolutionists as hostages. He hopes thus to prevent an actual assault upon and the sack of Tegucigalpa.****The siege of the city continues stubbornly, though most of the provinces of the country have declared in favor of the provisional government established by the insurgents whose leader is Gen. Polcaro Bonilla. Both sides are now almost without ammunition, and Nicaragua is becoming anxious to have its war brought to a close as soon as possible.****FIRE UP AGAIN.****Illinois Building and the Art Palace Dome are Scorched.****By Telegraph and the Associated Press.****CHICAGO, Feb. 18.—Another World's Fair, undoubtably of incendiary origin, broke out this afternoon in the east wing of the Illinois State Building. Early in the progress of the fire a flying brand ignited the northwest dome of the Art Palace, the roof of which was on fire. The main dome, which produces a twenty-stamp mill on free-milling ore of low grade, which yields from \$10,000 to \$15,000 per month. The Golden Cross Mining and Milling Company, operating in the same district, has two twenty-stamp mills which turns out an average of \$40,000 per month, the ore being the same as the Paymaster, except that some very rich streaks are sometimes found.****Twenty-two miles north of Yuma is the Picacho district, where an English company is operating a more strictly speaking, a ground smelting plant, by pumping from the Colorado River. Even with expensive machinery, the ore here amounts to a daily output of \$500 per day. In the same district, the Picacho mine operates a twenty-stamp mill on free-milling ore of low grade, which yields from \$10,000 to \$12,000 per month.****At Gila City, twenty-two miles east of Yuma, is a gold district, producing free-milling ore, for which a ten-stamp mill is being built. The prospects are very promising, new discoveries being made every week.****The Harquahala district, 100 miles northeast of Yuma, is one of the richest gold sections. The ore runs from \$5 to \$100 per ton, and, worked by two dozen mills and one ten-stamp mill, yields \$500,000 per annum.****Besides these particular districts are many small camps tributary to Yuma, which taken altogether, with those described, comprise nearly five hundred square miles of desert land, and have an output of \$100,000 to \$160,000 a year, no insignificant factor in the new wealth of this part of Arizona.****From Yuma on the Southern Pacific Railroad is Gila Bend, a new town, the name of which is destined to become the center of a great agricultural and horticultural district in the Gila Valley. This section is depending for irrigation mainly upon the system of the Peoria Canal, completed by the Peoria and Gila Bend Irrigation and Navigation Company.****The main canal was completed last year for a length of thirty-eight miles, but has been made inoperable, owing to a washout in the dam, which is located twenty-five miles north of Gila Bend, on the Gila River. The dam, when last completed, was in two sections, one a timber spillway and the other stones and earth raised on piles, supposed to be driven to a solid foundation. During the last flood season over three hundred feet of this dam was washed away, and the entire structure on similar lines and the new one is now well advanced. The new dam will be of heavy timber bolted to firm rock on piles of old stone and earth section, now well settled. Every precaution and the best engineering skill have been used to render the dam absolutely flood-proof. The entire dam is 2100 feet in length and built between two high buttes on****FILLED THE PULPITS.****The Woman Suffragists Conduct Religious Services at Washington.****By Telegraph and the Associated Press.****WASHINGTON, Feb. 18.—The woman suffragists held a service today. Rev. Anna H. Shaw of Philadelphia conducted the meeting, and delivered a sermon. Julia Ward Howe recited her "Battle Hymn of the Republic" and a responsive service was read by Miss Yates. This evening many pulpits in the city were occupied by ladies of the convention. Tomorrow the annual election of officers takes place.****The Harvard Student Dead.****CAMBRIDGE (Mass.), Feb. 18.—A. H. Linder, a Harvard student, who sustained injuries in a friendly sparring match last Tuesday, died today. A medical examination will be made today in the interests of the profession, as this is considered a remarkable case.****A Political Senator.****MONCIVIA, (Mex.) Feb. 18.—The amazement of the world, Minister of Finance, Governor of the State of Coahuila, has resigned has created a great stir in political circles throughout the State.****The Indian Deficit.****CALCUTTA, Feb. 18.—The coming Indian budget estimates the deficit at \$350,000 lakhs of rupees.****Let Us Hope.****Omaha Bee.****The Work of Industrial readjustment in the United States appears to be making steady progress, and there is reason to expect that by the time the new tariff bill becomes law every department of industry will have been arranged to meet the changing conditions.****A Depraved Wretch.****A respectably dressed young man, who gave his name as C. A. Johnson, is in the City Jail awaiting trial upon the charge of indecent exposure. Having been arrested after committing the offense, but ran into the arms of Officer Shannon, who promptly arrested him.****THE NETHERY.****LONDON, Feb. 18.—A dispatch from Rio de Janeiro states that the Brazilian cruiser Nitheroys has arrived outside the harbor.****A Royal Wedding.****BERLIN, Feb. 18.—The wedding of the Grand Duke of Hesse and the Princess Victoria Melita of Saxe-Coburg-Gotha has been finally arranged for April 22 at Coburg.****FROM A HOT PLACE.****Facts and Misconceptions Regarding Yuma.****A Section Which Has Great Future Possibilities.****What Irrigation and Horticulture Will Soon Effect.****A Reception to Ohio Horticulturists—Gila Bend Which Has Grown Up Like a Mushroom—An Interesting Section of Arizona.****PHOENIX, Feb. 18.—To the overland traveler an impression has for a long time prevailed that Yuma is a name which stands for unbearable heat and repulsive Indians. But, under the influence of modern enterprise and a more thorough knowledge of its tributary resources, this sentiment is changing and a new era for this section of Arizona seems to be well inaugurated.****Under the irrigation system are thousands of acres of as fertile land as there is in the Territory, especially adapted to fruit culture. As soon as the water is in the canal lateral for irrigating, the land is covered and several thousand acres prepared for planting.****Among those interested in the proposed fruit-growing industry of this section are several California orchardists of experience and success.****The day devoted to a reception of the Ohio horticulturists last week was a sort of red-letter day for the Salt River Valley. These men, who are practical in horticultural experience, saw the irrigation canals, orchards and fields. Making all due allowances for the enthusiasm of such occasions, there was much candid expression of confidence for the future success of fruit-growing in this valley. Among those who publicly expressed their convictions was one of the most thoroughly practical and far-seeing members of the party, Mr. Alanson T. Nichols, who voice to the sentiments of his associates when he said: "I hear that you want to be your own rulers; you want Statehood. Ohio has two Senators, one of whom I helped to elect to that position when I was an humble member of the Legislature, and I trust that I and I have with our two Senators will be used to help you on to Statehood. For I know you are prepared for it, even though you did not possess any other requisite than this salt river valley; that is itself an enough resource.****Under the irrigation system are thousands of acres of as fertile land as there is in the Territory, especially adapted to fruit culture. As soon as the water is in the canal lateral for irrigating, the land is covered and several thousand acres prepared for planting.****Under the irrigation system are thousands of acres of as fertile land as there is in the Territory, especially adapted to fruit culture. AMUS MEMENTS TONIGHT.
BURBANK THEATER—The Danites.

OUR CROWDED SCHOOLS.

There is a riot breeding in the beautiful city of Los Angeles because of the crowded condition of our public schools. Children are running the streets because there are not schoolrooms in which to house them, and in other cases the urchins get but a half day's schooling instead of a full day. In one small district of the city there are over forty children who do not go to school at all, and in order to make room certain classes have been shifted from one school to another and consolidated, thus making it necessary for pupils to travel past the buildings in their own wards and go as far as a mile and a half to reach the buildings to which they have been assigned. When a citizen buys property or locates in a certain section of the city he expects to send his children to the school-building in that particular vicinity, but in Los Angeles he doesn't do this by considerable. The situation is outrageous. We are advertising for people to come and settle among us, but the first thing a prospective or actual resident asks about is the school question. The answer he gets is one that sends him elsewhere to seek a home. We are driving away desirable people because of the lack of school facilities, and something ought to be done about it. It is a fit question for our Chamber of Commerce to take up and agitate for the growth and prosperity of Los Angeles depends as much upon ample school facilities as upon the price of town lots or the profit in raising oranges. The people whose children are crowded out of school are ripe for revolt and The Times does not mean it. It is a question that must be met and that speedily.

An aggregation of Kansas freaks are going on a barn-storming campaign in the interest of the Populist party, that of bedeviled State of Lewelling Lease, grasshoppers, droughts, tornadoes and wild men of Borneo. That the show will be a corker from Corkerville may be easily imagined, and we can think of nothing to compare with it except our own beautiful pastoral play called "Evans and Sonzat." Kansas may be a daisy, a hummer, a bee and a la-la, but she never can get up a play like ours. Never!

The Massachusetts Legislature has put the kibosh on skirt dancing and the nudge in art, and has under consideration a measure to prohibit women from appearing in public with dress which exposes any part of the female form divine below the neck. When one stops to consider the angularity of the women of the old Bay State he cannot have the heart to question the excellent efforts of the Massachusetts Legislature, and may be excused for expressing the joyous hope that the bill will pass.

Christopher Evans has a clever imitator in Leroy Harris, who stood up on the bench, bar and a courtroom full of people last Saturday in Buffalo, New York, and gaily faded from view. It is a bit singular that the criminals appear to have a monopoly of the thing called "nerve" these days, and that the remainder of the populace borders on imbecility, if not something more of a white-livered character. Mr. Harris should come West and form an alliance with our own Christopher. He would round out the combination in the greatest possible shape.

Two negroes were lynched in Alabama last Thursday night, although it was well known to the Lynchers that but one was guilty; but in order to get the right man they were both strung up. There is nothing at all surprising about this piece of every-day intelligence, except the statement that the negroes hung but two "niggers," and the only excuse for that probably is that they hadn't any more handy.

The Kentucky Senate has knocked out the Anti-poolroom Bill by a vote of 42 to 22. If a Kentuckian can't have untaxed whisky and a chance to bet on the races, life has few charms for him. The star-eyed goddess of reform proposes to reform the other fellows. Kentucky is exempt.

The fleets in the harbor of Rio have taken to the woods of the wild and billowy sea to escape the yellow fever. Yellow Jack may not be able to cock a canon, but as a slayer he is out of sight, and is eminently successful in putting his victims in the same quiet condition.

The startling intelligence comes over the wires that Bill Nye, the popular and original American humorist, is lying at the point of death at Niagara Falls. Should we lose the genial Bill it will leave a mighty big hole in the world.

The next woman's suffrage convention is to be held at Atlanta. They will take the town, but in a more amiable and talkative way than Uncle Billy Sherman took it that time.

Any one having found a quorum that they can't use is requested to forward it to one Mr. Bland at Washington, D. C. He wants one of those sort of things, and wants it mighty bad.

The Supreme Court of California has decided that husband and wife in the majority of their own home may say what they chose of the character of

AT THE CHURCHES

Two Sermons on Divine Healing.

The Subject Discussed by Dr. Chichester.

Mr. Smithers Gives His Views and Authorities.

Rev. Mr. Stine Strongly Endorses the Associated Charities and Asks His Congregation to Co-operate—Other Services.

At Immanuel Church yesterday morning, Dr. Chichester preached an effective and timely sermon from Mark xvi, 17-18. "And these signs shall follow them that believe. In My name shall they cast out devils; they shall speak with new tongues. They shall take up serpents; and if they drink any deadly thing it shall not hurt them; they shall lay hands on the sick, and they shall recover."

These words, said the speaker, promise so much that somehow we fail to accept them in their full significance, but pass them over rather as some strange orientalism which we cannot comprehend. Yet it was our divine Lord who spoke these words, and they are the very last words He ever uttered on the earth. Standing there in the deep solemnity of his departure, and giving a farewell message to the men whom he loved, He must have meant it—every word of it. "These signs shall follow them that believe," and these signs did begin to follow them immediately, such as the gift of tongues on the day of Pentecost, the healing of the lame man at the temple and the shaking of the deadly viper from Paul's hand without injury to him. But in the course of time there came a change, and these physical miracles wrought by believers became more and more rare. Men, indeed, believed, but their faith did not seem to have the power it once had. True, these miraculous manifestations have never entirely disappeared—not even in the present day. All along the track of the church's history there have been well authenticated instances of God's supernatural intervention in the experiences of His people. Sometimes it has been a case of divine healing sometimes miraculous deliverance from financial difficulty, and again providential preservation from peril. And yet, granted that these signs have thus followed them that believe from time to time, we all know that their appearance has only been occasional, and even then it is not always in the exactness of His character. His character was the final proof of spiritual power. He was God's most glorious image in humanity. He was the only one who did God's will upon earth as it is done in heaven. "He that seeth Me seeth the Father." The best of the Orient and the best of the West.

The preacher said that the church has not exhausted the virtue of this promise, but that there has now come a far more profound fulfillment of it than was originally intended. To wit: "Verily, verily, I say unto you: 'He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto My Father.'" And now, what works can be greater than these? "I can do nothing," Christ avowed, "but what my Father doeth." And yet, granted that these signs have thus followed them that believe from time to time, we all know that their appearance has only been occasional, and even then it is not always in the exactness of His character. His character was the final proof of spiritual power. He was God's most glorious image in humanity. He was the only one who did God's will upon earth as it is done in heaven. "He that seeth Me seeth the Father." The best of the Orient and the best of the West.

The preacher said that the Trinitarian wastes his time in proving that He was the whole of the infinite and eternal God, because he lifts him out of the realm of imitation, as we cannot do. The omnipotence of the deity and the Unitarian wastes his time in this. He was a mere man, thereby depriving us of seeing the divine possibilities of the human soul; and between Trinitarian speculation and Unitarian criticism, we have come high losing the mark. Christ who revealed the humanity of God in the divinity of man in His gospel and in His life. Our Christian consciousness is beginning to demand the restoration of our captain of salvation to His providential place, and His freedom from cold-blooded criticism and morbid metaphysics.

TEMPLE-ST. CHRISTIAN CHURCH.

Owing to the general interest upon the subject of "Divine Healing" in the city at the present time, Rev. A. C. of the Temple-St. Christian Church preached to an interested audience last night on that subject. He said that this error arose from several reasons. First, from a misinterpretation of those scriptures in which the spiritual truth of the cure of sin is presented under the similitude of the narrowness of the Jews, the lifelessness of India, the harshness of Arabia, the bigotry of Persia, the pessimism of Buddha. Appetite, passion, affection, intellect, conscience, will and spirit were highly developed in His character.

His character was the final proof of spiritual power. He was God's most glorious image in humanity. He was the only one who did God's will upon earth as it is done in heaven. "He that seeth Me seeth the Father." The best of the Orient and the best of the West.

COMING EVENTS.

Programme for Washington's Birthday.

Both Park Tracks to Be Utilized on That Day.

East Side Cyclers Preparing for a Handicap Race.

The Course Will Be Over the "Adobe Road" to the Limits of South Pasadena and Back—Sporting Notes.

A varied programme of outdoor sports has been arranged by the different clubs of Southern California for February 22, Washington's birthday, which will afford amusement to the many who celebrate the holiday in this portion of the State. At Athletic Park the annual collegiate contests will take place, while on the Agricultural track the Polo and Hunt Association will run a number of events. The college boys will occupy the time with bicycle races, running and jumping trials and other athletic features. College College and university boys are reported as being in excellent form, and both institutions will make a hard "try" for the cup offered and the contest for the other trophies promises to be particularly close.

The Polo Association have made more extensive arrangements than ever before for their meet, a number of good prizes having been provided as rewards for the winners of the different races. In detail, as first announced, the programme is as follows:

Steepchase: Open handicap, about three miles, hunting country; top weight, 165 pounds; no penalties; gentleman riders allowed seven pounds. Entrance, \$5. About \$100 in prizes.

Pony hurdle race, ladies' purse: Standard, 14.2; top weight, 150 pounds; four-year-olds, 13.2; weight for inches; gentleman riders allowed seven pounds. Entrance, \$5.

Three-eights of a mile dash: For two-year-olds; weights, fillies and geldings, 115 pounds; stallions, 118 pounds. Entrance, \$5.

One-fourth of a mile: Handicap. Entrance, \$5.

One-fourth of a mile: Shetland ponies; weight for inches. No entrance fee.

HANDICAP RACE

The East Side Cycling Club will give a handicap road race, April 7, over what shall be known as the East Side Park course, beginning at the East Side Park, on the "adobe road," out to the cross-road, just above the side of the San Gabriel, with, then over to the Mission, just about the one-mile House, and then back on the Mission road to the East Side Park, making a sort of kite-shaped course. This will give a stretch of a mile or more of straight, level road to finish on, and people standing at the park will be able to see the riders at least two miles away.

The East Side Club is noted for making a success of what it undertakes, and, with the help and work of those interested in outdoor sports, will without doubt make a grand success of the race.

The prize list will consist of probably twenty or thirty suitable and appropriate prizes. A round-trip ticket to the Midway Fair at San Francisco will be among them.

TOO BRUTAL

In the Massachusetts Legislature last week a petition from Daniel A. Buckley of Cambridge for legislation prohibiting the public exhibition of the game of football, and such as will prevent the playing of rough-and-tumble games when played between teams representing colleges or other educational institutions," was introduced. A bill accompanying the petition provides punishment for any person "who takes part in a game of football, when such game is played for money, or for persons who have paid an admission fee to witness the same, or who promotes the playing of a game of football when money is charged for admission to the same, or who offers or sells a ticket of admission to the game, or who, while a student in an institution, leading and while engaged in a game of football, beats, strikes, or intentionally wounds or bruises another person engaged in playing such game."

SURPRISED THEM.

Stromboli in his three-year-old form went lame, and it was believed that he would prove useless for further racing. A syndicate purchased him so as to sell him in the United States as a sire, because of the success here of Dardabin, Sir Modus, and a number of other horses. No buyer could be had on the Pacific Coast, and it was determined to try Stromboli in racing once again. The result has been his great success, and so he will go East to compete with the fleetest of our thoroughbreds.

DIRECTUM'S FUTURE.

John Kelly, the driver of Directum, 2:054, who is now stationed at Denver, Colo., writes to "Veritas" as follows:

"I arrived here last Friday from Pleasanton and have signed a contract with the San Joaquin and Los Angeles for the season of 1894. I will also take Directum along with his stable, and probably his half-sister, Electrina, 2:26. Directum will be kept in the stud until about May 15 next and then shipped to me here. When I left him a week ago I think he is in better fitter and more ready money and is in better shape along as well as I am. You can look for Nancy Hawk's mark to be beaten the coming season. From a look at the breeding and a hurried glance over the members of my stable I believe there are plenty of good horses and low records in it. The weather is more suitable for regular work on the horses and I will move them out to the track this week."

ORMONDE'S SEASON.

Ormonde, the "horse of the century," will be bred to all of the mares imported by his owner, W. O. MacDonough, including Kissing Crust, Countess Langdon, Wildflower, Mirandella, Sapphira, and China Rose. Of the home mares at Menlo Ormonde will serve Moonlight, dam of Ajax; Eliza, Cousin Peggy, dam of Geraldine; Bessie W. Lady Marion, sister to Sir John; Eliza, Mata, Fairy, Mercedes, and Mary Anderson. Besides those following famous stud matrons from the Palo Alto will be bred to Ormonde: Fairy Rose, dam of Racine and Fairy; imp. Flirt, by Hermit, dam of Fidelia, Flirtation and Flambouy; imp. Anna, dam of Rinfax and Nornell; imp. Gorgo, by imp. Ixion, the Amazon, out of Flirt, imp. Music, by Prince Charley; imp. Cornelia, by Isomony, the dam of Cadmus; imp. Teardrop, by Scottish Chief, the dam of Brutus and Cyrus, and imp. Queen Bess, the dam of Nero. These include many of the best brood mares in the world.

SPORTING NOTES.

An official count of the number of cyclists in France is placed at 132,276. Gov. Markham has appointed and commissioned Philo Hersey, director of Agricultural District No. 5, San Mateo

SPORTS FOR THE WEEK.

Some of the Pleasures to Be Had at the Hotel del Coronado:

Monday, February 19—Progressive euche; commencing at 8:30 p.m.; yacht racing on Cliffs and San Diego Bays; starting fire Coasters; bathhouse at 10:30 a.m.; judges boat, the Isabel.

Tuesday—Promenade concert, 8:30 to 10 p.m.; clay pigeon shooting, pitch on grounds; golf, commencing at 2:30 p.m.; bowling tournament, 8 to 10 p.m.

Wednesday—Tally-ho excursion to Old Town, San Diego; Old Town, San Diego valley, passing "The Bell of Old Town"—Ramona's home, palm trees, 150 years old, lunch in an olive orchard 150 years old; after lunch, return to Old Mission and government Indian training school, where the Indian children will give an impromptu concert; returning by San Diego harbor; tennis courts near hotel; tea served by the ladies in Coronado water spring house at 4:30; informal dancing at 8 p.m.

Thursday—Water polo—match game between Red and Blacks, also barrel and obstacle races; fancy diving and swimming; pony races on grounds; golf, commencing at 2:30 p.m.; music from 8 to 9:30 p.m.

Friday—Baseball game on grounds near hotel; pony races at Coronado; race trials; different tennis places; including a hurdle race; special train direct; promenade concert 8:30 to 10 p.m.

Saturday—Horse chase on horseback with greyhounds on North Island; tally-ho coaches and riders leave hotel at 2:30 p.m.; Full-dress ball, commencing at 9 p.m.; dinner at 8 p.m.; dancing at 10 p.m. All guests are invited to join in song service in the theater at 8:30 p.m.

Music daily during lunch and dinner.

Coronet & Bureau of Information,

120 North Spring St., Los Angeles.

T. D. YEOMANS, Agent.

THE FAVORITE BEACH, REDONDO.

It can be reached within an hour from any part of Los Angeles.

It has the finest baths on the Southern Coast.

It has the finest view of ocean and islands to be seen in Southern California.

It has one of the finest hotels in the entire state.

THE FAVORITE HOTEL, REDONDO.

Bright, sunny rooms, with ocean views from their windows.

Within sight of the life and novelty of the ocean wave, where domes and arches, and vessels receive and discharge cargoes.

Table furnished with fresh vegetables every day, of home production.

No purchasing agency is needed to keep the Redondo supplied with the best.

In cream and butter are fresh from its own dairy.

Orchestra in constant attendance, musical, vocal, bands, and in the parlors in the evening.

The favorite tourists' home.

Temperature, Sunday, February 18: 6 a.m. 58, noon 66, 6 p.m. 53.

HINTS OF THE "400."**Platitudes on All Sorts of Behavior in the Swim.**

Good Form in Dress, Manners, Speech and at the Table Set Forth Against Shocking Examples of Bad Breaks.

(New York Sun) "Bad Breaks by One of the '400'" is printed in bold letters across the cover of a recently-published pamphlet.

Not that the author intended it to read that way. His book for him is some words in fine print, which make up the title as follows: "Bad Breaks in Dress, at Table, in Manners, in Speech, etc., Compiled and Edited by One of the '400'." Of course that's different. Still, after you have perused the book you will naturally ignore the fine print and again read it: "Bad Breaks by One of the '400'." On the title page inside there is the additional legend: "A few hints to society sinners" and further on the quotations "And we have done these things which we ought not to have done."

The author's first warning uttered by this social misanthropy is full of meaning. It discloses a deadly antipathy toward two elements of the community, an antipathy which crops out in various later utterances. He says: "They who wear white are always in bad taste."

"They do very well for grooms and politicians. A white waistcoat of pique or some such material is always permissible," and should not be confounded with "polka dot" and other cloth abominations."

"You can't have it. When this stern member of the '400' wishes to designate the lowest variety of the human animal he speaks of 'grooms and politicians.' His tone says: 'Than this there is no lower depth.' But he has shades of sarcasm for the few others, too."

"There can't be this biting! Every song-and-dance man, sports and bad actors have their coats satin-faced and wear them rolled back, so as to display the material. The coat of a well-dressed man will hang straight from the shoulders, the shoulders will not be set back. The gentleman knows with what his coat is lined and faced, and does not care to display the material to the public. He is used to wearing good clothes."

On the vital subject of scarf pins the author is equally explicit. "He says, though it grieves him sorely, that the man who wears a scarf pin stuck in the center (the Italian are his) of the upper part of a four-in-hand tie does not know how to dress. It must be planned out half an inch above the top of the tie."

"The men who array themselves in such a manner are always in bad taste."

"People who yawn or cough without covering the mouth with the hand deserve to go eventually where will go those who sneeze without proper use of the handkerchief." This is non-threatening sound. And here is something for young women to ponder over: "No self-respecting girl will be seen lunching or dining at any public restaurant unless a chaperon be present."

If the following is true then are our friends and neighbors in any city where so many "rufians" are to be found.

"Smoking on the street is very bad form, and a man who does so white walking with a woman is a ruffian."

And here is another reference to the unlovely: "A coach seat or a transverse carriage, being provided there are no ladies present but a pipe here or on the street is barred. Gentlemen smoke pipes in their apartments; grooms on the street."

MINING NOTES.

What is Being Done Up in the Victor District.

Special Correspondent of The Times.

VICTOR, Feb. 18.—If there are no more snowstorms this winter the Bear Valley Reservoir Company will have a worse set-back than their financial troubles. The present snow in the mountains will not make much of a raise in the big reservoirs.

The Morongo King Gold Company is already part of its ten-stamp mill on the ground. W. C. Allen, the president, says they expect to have the stamps dropping in a month. The company has two shafts sunk to the depth of 230 feet each about 300 feet apart. A third shaft is to be sunk 150 feet on the ledge, with twenty-seven feet of ore that gives a working test of over \$10 per ton. Their first-class ores show a test of \$3 per ton. The ore will be probably milled and mined for 20¢ per ton. Judge Campbell of San Bernardino is one of the largest shareholders.

The directors have set aside one-quarter of the stock of the company for a working capital, so the shareholders are not to be assessed for their reduction in value. Another bullion-producer has also been formed by members of the company to be that most of the mill wheels in Western New York will be run by Niagara Falls in two years.

The main wheel-pit at Niagara Falls has the electrical machinery and turbines now being put in, and the total cost of about \$1,000,000 are almost solely for the distribution of power by electricity outside of the city of Niagara Falls. The water power for local consumption will be created in smaller mills of the type of Niagara Paper Company, already in use which will be sunk along the tunnel to suit convenience.

The 50,000-horse-power which it is expected, will be generated eventually by the turbines in these pits, and which is to be set apart for Niagara mills, is as much as is used at present by the entire city of Buffalo with its 300,000 inhabitants.

But most of these plans are for the future. The beginning of the production of water power for local use was made two weeks ago, and the beginning of the production of electric power for distribution also began on the 1st of June next, at the great dynamos now being built by the Westinghouse Company in Philadelphia are ready in time. Only 15,000 horse power is to be transformed into electricity at first, and it is the intention to send the power to the Canadian side of the falls, and is lined with heavy masonry. It is ready except the dynamo, and there is some possibility that these may be ready even before the 1st of June. If not, it will be done toward stringing the wires to Buffalo until the dynamos are tested. It will be about four months later before the power can be delivered to the local distributing companies.

The future of the city of Niagara Falls is assured, for it rests on no experiment with an unknown quantity.

The massive stone power-house which is to contain these dynamos is built directly over the main wheel-pit, and is now practically completed. At present it is 21 feet wide and 140 feet long, and is lined with heavy masonry. It has been practically completed for several months. In fact, the work is ready except the dynamo, and there is some possibility that these may be ready even before the 1st of June. If not, it will be done toward stringing the wires to Buffalo until the dynamos are tested. It will be about four months later before the power can be delivered to the local distributing companies.

Only 15,000 horse power is to be transformed into electricity at first, and it is the intention to send the power to the Canadian side of the falls, and is lined with heavy masonry. It is ready except the dynamo, and there is some possibility that these may be ready even before the 1st of June. If not, it will be done toward stringing the wires to Buffalo until the dynamos are tested. It will be about four months later before the power can be delivered to the local distributing companies.

The massive stone power-house which is to contain these dynamos is built directly over the main wheel-pit, and is now practically completed. At present it is 21 feet wide and 140 feet long, and is lined with heavy masonry. It has been practically completed for several months. In fact, the work is ready except the dynamo, and there is some possibility that these may be ready even before the 1st of June. If not, it will be done toward stringing the wires to Buffalo until the dynamos are tested. It will be about four months later before the power can be delivered to the local distributing companies.

The 50,000-horse-power which it is expected, will be generated eventually by the turbines in these pits, and which is to be set apart for Niagara mills, is as much as is used at present by the entire city of Buffalo with its 300,000 inhabitants.

But most of these plans are for the future. The beginning of the production of water power for local use was made two weeks ago, and the beginning of the production of electric power for distribution also began on the 1st of June next, at the great dynamos now being built by the Westinghouse Company in Philadelphia are ready in time. Only 15,000 horse power is to be transformed into electricity at first, and it is the intention to send the power to the Canadian side of the falls, and is lined with heavy masonry. PASADENA.

The Opening of the Municipal Campaign.

A Ticket to Be Nominated by Popular Vote—
Sunday Happenings in a Quiet
Town—Personal Notes
and Brevities.

A well-attended meeting of the members of the Citizens' Central Committee was held Saturday evening at Knight & Simpson's office for the purpose of calling a convention to nominate a ticket for the municipal election that will be held in April. A majority of the committee, which is made up as follows, were present:

First Ward—T. P. Lukens, C. M. Simpson, Calvin Hartwell.

Second Ward—John McDonald, J. W. Wood, A. O. Bristol.

Third Ward—Webster Wotkyns, W. H. Wiley, W. E. Arthur.

Fourth Ward—W. H. Magee, James McLachlan and Ward B. Rowland.

Quint—James Clarke, A. K. McDonald, W. D. McGilvray, F. F. M. Strong.

Chairman W. H. Wiley presided and Webster Wotkyns acted in his official capacity as secretary. Without unnecessary delay a committee was appointed to outline a plan of action, and soon a motion was carried and unanimously adopted, recommending that a caucus for the purpose of electing twenty-five delegates from each of the four wards of the city, divided by Raymond Avenue and Colorado street, be held in each of said wards on March 7-8 o'clock. The committee further recommended that the delegates in turn meet on March 3 and nominate candidates for the following offices: Three members of the Board of Trustees, a cleric who shall be ex officio treasurer, a treasurer, and a marshal, who shall be ex officio collector and collector. This section of the report was also adopted by unanimous vote. All resident voters, who are in favor of maintaining the same liberal policy, may communicate with the committee of administration of the city government as has prevailed during the past four years, are requested to participate in the caucuses in their respective wards, so that representative delegates may be chosen.

The so-called "Citizens" party has been in power for four years, and it may be truly said that municipal affairs have never been so well conducted or so prosperous as during its administration. Everybody, with the exception of the citizens, is satisfied, and it is only reasonable to suppose that the ticket nominated March 3 will meet with little if any opposition.

The plan adopted by the Citizens' Committee leaves no reason for criticism. Everybody is invited to attend meetings in the respective wards on March 1. Each ward will nominate twenty-five delegates to a general convention, and thus the delegates are not suitable persons. It will be the fault of the resident voters if politics will not find its way into the transaction. Subsequently, 100 delegates, chosen to represent the entire city, will meet and nominate candidates for the previously-named offices. It is safe to say that the ticket named on March 3 will be elected without opposition, and the people have to do is to see that the right kind of people are placed on the said ticket.

HEARTS AT THE GREEN.

The guests at Hotel Green were delightfully entertained Saturday evening by a progressive hearts party given in the spacious ballroom by the management. The players occupied six tables, and the rich gowns worn by the ladies, most of whom appeared in evening dress, were displayed to the best advantage under a flood of electric light, making the scene one of unusual brilliancy.

The participants included Mr. Holmes, Mr. and Mrs. Willis, Miss Willis, Mr. and Mrs. Alexander, Mr. and Mrs. Borden, Mr. and Mrs. Barker, Mr. Horton, Mrs. Harding, Mrs. Conner, Miss Robinson, Mrs. Farr, Mr. Leonard, Mrs. Robinson, Mrs. Smith, Mrs. Hartwell, Mrs. Sheridan, Mr. Gilmore, E. H. Groendyke, Mrs. Lee, Mrs. Connelly and Mr. McQueen.

The affair was ably superintended by Mr. Groendyke and Mrs. Holmes and passed off most enjoyably. After two hours' play the punch on the score cards showed that Miss Willis had won the first ladies' prize with a heavy tally, low second and other points. Mr. Gilmore captured the first gentleman's prize, a handsome silver-plated pocket-knife, and the second prizes were won respectively by Mr. Leonard and Mrs. Farr. The booby prizes went to Mrs. Conover, whose card showed a grand total of 135 points, and Mr. Groendyke, who ran up a score of eighty points. The prizes were, without exception, handsome and novel, and even the booby winners went away well satisfied.

RIVERSIDE COUNTY.

The Fruit Exchange Holding Members to Their Agreement.

Court Citrus of the Foresters will hold a public meeting on Wednesday evening at the residence of his deceased brother, Hon. R. B. Pierce and wife of Indianapolis, who visited Riverside two years ago, and guests in the Glenwood.

Mr. Pierce, Forest, is still of the opinion that all members of the exchange should stick by their agreement, and in case they are not so disposed, it will take steps to force them.

Papers have been prepared for a suit to compel H. W. Fletcher to fulfill his contract.

The defendant's appeal in the case of

John M. Dreyfus vs. David W. Badger was set for Supreme Court next week.

The case of R. B. Canfield vs. E. H. Hill et al. was continued until the 19th inst.

PASADENA BREVITIES.

The local livery men did a big business Sunday.

Sunday morning's overland arrived three hours earlier than usual.

A party of northern guests expect to visit Martin's Camp this week.

A regular weekly drill of Co. B. will be held this evening at the armory.

Tonight is the time fixed for the minstrel entertainment at the Carlton.

The City Council will meet in regular session at 2 o'clock this afternoon.

Several coaching parties from Los Angeles passed through town on Sunday.

C. S. Martin went up to his mountain camp on Sunday after a week's stay in Pasadena.

Nearly 1600 copies of the Times were circulated in the Pasadena district on Sunday.

The work of grading, guttering and curbing South Los Robles avenue is about completed.

Pasadena Tent, Knights of the Macabees, will hold a regular weekly meeting this evening.

A meeting of the Mystic Circle will be held at 8 o'clock this evening at the Carlton, 11th and Spring.

Frank Palmerante went to Azusa Sunday to assume the position of Santa Fe station agent at that place.

The Monday afternoon Chautauqua Circle will meet today at the home of Mrs. M. I. Stuart on Howard street.

Sunday was cool and clear in the valley, but the mountain tops were enveloped in clouds that hinted of rain in the distance.

A meeting of the Moreno-avenue Chautauqua Circle will be held this evening at Mrs. Johnston's home on North Los Robles avenue.

The management of the Hotel Green and numerous of the business men of Pasadena have arranged for a series of six concerts to be given Saturday

afternoons between the hours of 2 and 4:30 at the band stand in Hotel Green Park by the Pasadena Brass Band, beginning Saturday, February 24.

A reception will be tendered this evening at the hall to Miss Bina West, supreme record-keeper of the Ladies of the Macabees, by Pasadena tent, K. of T. M.

At the south end of Orange Grove avenue is much improved, thanks to the efforts of the "unemployed." If only some one would cart away the accumulated piles of dirt, everything would be lovely.

President T. P. Lukens of the Pasadena National, President F. C. Bolt of the San Gabriel Valley, and Cashier H. C. Cooper of the First National Bank, will attend the bankers' convention in San Francisco this week. Mr. Bolt left on Saturday, Mr. Lukens left yesterday by boat and Mr. Cooper to the Southern Pacific Sunday afternoon train out of Los Angeles.

Rev. J. J. Hanson, D.D., of Chicago, an author and pulpit orator of note, is spending the winter in Pasadena, having leased a house on Pasadena avenue, near Columbia street. Dr. Hanson's latest, and perhaps greatest work is entitled, "The World's Congress of Religion," at the World's Columbian Exposition, being an exhaustive abstract of 1200 pages, profusely illustrated and with marginal notes, of the congresses held in the Art Institute at Chicago from August 25 to October 15, 1893.

Thursday evening there will be given at the Raymond a series of the most prominent of the notable entertainments of the season. The programme will include, among other interesting features, a number of songs by two of the lady guests, who are well known to be vocalists possessing rare talent and ability. The numbers given to the different members of the association will be of winning appreciation, while a laughable part of the programme will be the German impersonations of a "Gentleman of Vienna."

SANTA BARBARA COUNTY.

Agricultural—The Flower Festival—Brevities and Personals.

A veritable drought scare has seized farmers in this section and, judging merely by indications apparent in this locality, without a reason. Many ranchmen are holding their hay, determined to wait at least a month before sowing, awaiting a rise to \$30 and \$35 a ton, the prices realized for a short time in 1888, forgetting that increased railroad and shipping facilities have made a 25 per cent increase on the normal rainfall possible.

The fact, however, cannot be winked at, although a downpour is reported from Pismo, Riverton, and other places last night. The weather here has occurred here save a heavy Scotch mist, insufficient to lay the dust. Generally speaking, grain is in and most of it up but thin stalks, and, according to the reports, the grass is backward, as is the case in most of the country. The Committee upon Resolutions reported the following, which were unanimously adopted:

"That the large display of fruit in glass, to which Orange county is enabled to send to the World's Columbian Exposition at Chicago was due to the efforts of the citizens of the county.

"That the opening address of the

Flower Festival will be given by

the Rev. J. C. Joplin, and that the

exhibit of the flower festival will be

given by the flower show committee.

The inquiry concerning Orange county satisfactorily answered, and the remnant of the exhibit disposed of by him to the best advantage, therefore it is

"Resolved that the flower show committee

"Resolved that the secretaries be instructed to place these resolutions on the minutes of the association and that copies be furnished the press for publication."

Upon the transaction of some further business the association adjourned sine die.

A DEAD MAN FOUND.

Word was received in this city late Sunday afternoon from Newport Beach that the body of a man, well dressed and about 45 years of age, had been found dead ashore at that place.

We were informed that he had only been dead a few days.

An undertaker was at once dispatched to the scene and at the time of his arrival found the man lying on the beach.

"Don't shoot him," said George, who was the first words I had spoken.

George was still running with Yorkie in his coat as fast as I could, thinking that the man must have been shot.

At the same time I screamed to my father to turn to the right. I noticed George had turned up to the right, and I turned to the right, and then I saw him partially draw the club from his coat.

"The claim on which I reside is governed by the section house to come with us.

"We threw the things out of the wagon as fast as possible, and in the meantime I heard a shot from the gun.

"The gun was fired at the foot of the hill by the boy, and he was standing on the beach.

"The boy was running back to the wagon, and the boy had no weapons whatever.

"Yorkie had no weapons whatever.

"The boy was running back to the wagon, and the boy had no weapons whatever.

"The boy was running back to the wagon, and the boy had no weapons whatever.

"The boy was running back to the wagon, and the boy had no weapons whatever.

CITY BRIEFS

NEWS AND BUSINESS.

The Weather.

U. S. Weather Bureau, Los Angeles, Feb. 18, 1891.—At 5 o'clock a.m. the barometer registered 30.28; at 5 p.m., 30.26. Thermometer for the corresponding hours showed 49 deg. and 54 deg. Maximum temperature 58 deg.; minimum temperature, 37 deg. Character of weather, partly cloudy. Barometer reduced to sea level.

The fourth lecture in the monthly course under the auspices of the Worth League will be given by Rev. Henry G. Spaulding, Wednesday evening, in the church on Broadway, between Third and Fourth streets. Subject, "An Evening with Whittier, Lowell, and Browning, with Personal Reminiscences."

In closing out our entire stock of pianos we are not offering any but the most celebrated and reliable makes, such as the Steinway, Sohmer, Gabler and Emerich. Every instrument must be sold, and will go for cost, as we are going out of business. Fisher & Boyd Piano Co., No. 312 West Second street.

Mrs. Edward C. Tolson will arrive from San Francisco today to take part in the Rubo concert tonight. She will, by universal request, sing the famous "Traviata aria," which will be hailed with delight by her many admirers.

Our whole stock of pianos and organs must be closed out in three weeks. You can buy any piano in our store at actual manufacturers' cost. Fisher & Boyd Piano Co., No. 312 West Second street.

By request, Herr Rubo will repeat the aria from "Siegfried Vespers," 8 to 9.

He has already received at the Eddy concert. Hear him tonight at the Los Angeles Theater.

Think of buying a good piano at a reduction of from \$100 to \$200. That's what you can do now at No. 312 West Second street, for Fisher & Boyd are going out of business.

The Acme Jubilee Singers give a concert at the Epworth Methodist Episcopal Church, Bellevue avenue, on the evening of Feb. 25, 1891, at 8 to 9.

We have a carriage mechanic in all branches of the carriage trade. We can save you money by having us do your work. The Tabor Carriage Works.

For good single, double and tally-ho turnouts, at reasonable rates, go to the St. George Stables, No. 510 South Broadway. J. L. Sanderson, proprietor.

Classes in French, and beginning in Spanish will be organized at the Y.M.C.A. tonight. French, 7 to 9; Spanish, 8 to 9.

Modeling and party dancing figure classes are being formed at the School of Art and Design. Models wanted.

The Dewey Gallery leads. One dollar per dozen—\$1 for the best cabinets, none better. No. 147 South Main street.

We guarantee the finest enamelled cabinet photos in the city for \$1 per dozen. Sunbeam, No. 236 South Main.

Fifty per cent. of old running sores can be healed by using only Bellan's La Grippe Ointment for the blood.

Herr Josef and Johanna Rubo and forty of their pupils tonight at the Los Angeles Theater.

Wedding invitations and visiting cards engraved at Kan Koo, in twenty-four hours.

Vocal solos, duets, trios, quartettes and choruses at the Rubo concert this evening.

Have your property taken with Baskerville & Reid, No. 215 N. Main street. Telephone 33. Mantels, library, office furniture, hardware number, H. Bohman, 84 S. Spring.

Combination coffee, freshly roasted, three pounds for \$1. At H. Jeune's. H. Jeune's freshly roasted coffees more in flavor than ever.

Martin's Camp, Wilson's Park, will be open all winter.

Finland haddies fresh from Boston at H. Jeune's.

Dr. Fleming, throat, nose and ear, Bradbury Block.

See ad of Hanna & Webb, society hall to let.

Rooms at U. S. Hotel from 50 cents up. Dr. Cowles removed to Bryson Block.

The City Council will meet this morning at 10 o'clock.

Dr. J. C. Fletcher, who was a life-long acquaintance of the poet Longfellow, will give an evening with Longfellow at the Y.M.C.A. tonight. All are invited.

The Y.P.S.C.E. of the Boyle Heights Presbyterian Church gave a poverty social Saturday evening at the home of Miss Ethel Campbell, No. 2719 Fourth street. The affair was much enjoyed.

There are undelivered telegrams at the Western Union telegraph office for Mrs. G. W. Sergeant, Fanny Thomas, Kershner, Dr. Blackington, James C. Walker, Mrs. C. J. Connor, Roy Pierce, Miss C. D. Rogers, Mrs. W. S. Waters, A. M. Irish.

The Ideal Guitar and Banjo Club gave one of their popular concerts at the Raymond Friday evening before a fashionable audience. The club played with their usual exactness and were ably assisted by Prof. D. H. Morrison, Bartone, and Miss Ross, elocutionist, whose members added greatly to the success of the entertainment.

Don Zellman, a precocious six-year-old, ran away from his home at Pasadena yesterday and was picked up by Mounted Officers Woodward at Westlake. Paid about \$100 yesterday evening and taken to the police station, where he was subsequently turned over to his father, who called there to report that the youngster was missing.

Willie Parkerson, a youth about 18 years of age, called at the police station at 3 o'clock yesterday afternoon and asked to see Dr. Bryant, stating that he had attempted to stop a runaway team on Alameda street and got the worst of it. As he exhibited a scalp wound which was bleeding somewhat profusely he was taken into the Receiving Hospital and his wound dressed.

PERSONALS.

F. C. Tanner and wife of Toledo, O., are guests at the Hollenbeck.

C. F. Winslow, wife and daughter Clara of Minneapolis are stopping at the Grand Pacific.

ABSOLUTELY PURE

KNIGHTS OF PYTHIAS.

Thirty-first Anniversary Celebration This Evening.

The thirtieth anniversary of the foundation of the order will be celebrated by the Knights of Pythias at an entertainment at Illinois Hall, this evening, given jointly by Olive Lodge No. 26, Tri-color Lodge No. 96, Gauntlet Lodge No. 129 and Marathon Lodge No. 182.

An interesting musical and literary program will be presented, after which there will be dancing.

Non-members of the order may obtain complimentary entrance from members, or from H. B. Belt, at room No. 513, Bradbury building. All members of the order are invited to be present without charge.

The following committee will be in charge of the entertainment:

Committee of Arrangements: T. O. H. Bogalsky, James Lowrie, A. H. Parsons, W. H. Koons, Charles Stanbury, C. A. Cordor, W. E. Patterson, H. B. Bean, W. H. Routzahn, H. B. Belt.

BIRTH RECORD.

WHITTELEY—Born, February 12, to Mrs. R. G. Whittley of Catalina Island, a boy; eleven pounds. Mother and son doing well.

Door Committee: W. E. Patterson, Charles Stanbury, C. A. Cordor.

CITY COUNCIL.

Matters That Will Come Up at Today's Session.

The draft of a new plumbing ordinance, the adoption of which has been recommended by the Board of Health, was presented to the City Council at last Monday's meeting and was referred to a committee appointed sometime ago to draft the ordinance. Members of the committee and others who have a practical knowledge of the workings of such an ordinance have examined it during the past week, and if the committee has investigated it to its satisfaction the ordinance will undoubtedly be presented to the Council for passage today.

In the matter of the proposed widening of First street between Main and Los Angeles streets a protest against the widening was two or three weeks ago referred to the City Engineer, who reported last week that it represented a majority of the frontage within the district of assessment fixed by the Council in that case. Action on the protest was deferred till today. There has been some talk that another ordinance will be presented which shall not affect the frontage of the property in the widening, which district shall be different from either of those comprised in previous presented ordinances.

It is expected the commissioners for the regrading of Temple street will not be able to present their estimate of benefit, at today's meeting of the Council. The progress of their work up to a few days ago was so encouraging that it was expected they would be able to present their report today, but the completion of the estimate for all the separate lots in the district has been found to require more time than was anticipated.

Novelty Silks, 50 pieces, high art novelties in changeable, two-toned and other effects, pure silk, new spring colorings, worth 18 upwards..... 69c

Novelty Suitings, comprising Silk mixtures and shot effects, new spring styles, 38 inches wide, bought to sell at 75c..... 50c

A. Hamburger & Sons
People's Store
SAFEST PLACE TO TRADE

WE ARE THE

Leading establishment of Southern California; employ more people and have the largest retail store on the Pacific Coast Why? Simply because we have bettered our wares from day to day, and we have now reached that point where we carry only the finest quality of goods that can be purchased, catering for the best trade and offering only the finest quality of merchandise at the same prices that others ask for inferior and oftentimes worthless goods. Each day finds our popularity increasing, and if we were not deserving of your confidence and patronage we certainly would not get it. It shall always be our greatest endeavor to give the most, and at the same time only the very best goods for the least money of any establishment on the Coast.

This week we have some extraordinary values to offer. If you will kindly give your attention to the columns below we will do our utmost to interest you.
